

# This is an exciting time for labor.

# BE PART OF IT.

From coast to coast, workers are waking up to the reality that their working conditions and standard of living will never improve until they join forces and stand up for their rights.

In fast food joints, warehouses and even nonprofits around the SF Bay Area, workers are ready to stand up. But they need our help.

These workers currently have no protection; most have no idea how to go about forming a Union.

**Get involved. Become a trained Member Organizer with SEIU Local 1021. Work on organizing campaigns throughout Northern California, the state and even the U.S., including the Fight for \$15 and Living Wage Campaigns. Join a growing movement to improve childcare in California for working families, parents, children, and allow providers to form a Union!**

The first step to getting involved in these campaigns is to join the **SEIU 1021 Reserve Organizing Corps (ROC)**  
To join, attend our two-part training and get active!

## Union Member Organizing Training

**Become a Member Organizer by attending one of these upcoming trainings:**
